## ABOUT US

PEAC is a capable and experienced engineering and commissioning company. We are an ACG certified Commissioning Firm. We operate across the USA from offices in Richmond Virginia and Chesapeake Virginia. Our team of experienced engineers and project managers provide leadership in the industries of Whole Building Commissioning and Retro-Commissioning. Our commissioning solutions include Whole Building systems and facilities' enclosures. Our experience includes new construction as well as renovation construction, Design – Build as well as Design – Bid – Build and Enhance Commissioning as well as Fundamental Commissioning. Our Commissioning services include all phases of Construction including Pre-Design, Design, Construction, Acceptance, Post Occupancy and Warranty phases. We provide leadership and represent the government's best interest. We work closely with the General Contractor, Designer of Record and all relevant subcontractors in a collaborative, non-confrontational partnership to make sure the design and construction meets the government's intent and requirements.
